

TO: GUTS Shuttle Drivers  
FROM: Donna Poillucci, AVP of Facilities and Residential Services  
DATE: December 16, 2025  
SUBJECT: Proposed GUTS Assignment

Dear GUTS Drivers,

The University is in discussion with Abe's Transportation (vendor) to assign the GUTS shuttle program management, infrastructure, and equipment to the vendor while retaining any of the current eighteen GUTS drivers who wish to remain employees of the University in the capacity of GUTS drivers.

At this time, I am writing to confirm that any current bus driver who wishes to remain a direct employee of the University in the capacity of a GUTS bus driver will continue with their current job duties as a Georgetown University employee driving for the selected University subcontracted vendor.

The vendor has agreed to offer employment to any GUTS bus driver who wishes to voluntarily be hired as a direct employee of the vendor. The University anticipates executing a service agreement with the vendor, effective January 31, 2026. Operational discussions are ongoing, and more information regarding operational and administrative processes will be shared in early January 2026.

If you are interested in voluntarily ending your employment with the University and being hired by the vendor, please reach out to Charlie Grab at [cq1493@georgetown.edu](mailto:cq1493@georgetown.edu) for more information by Friday, January 16, 2026. If you intend to remain an employee of the University in the capacity of a GUTS driver, no action is needed from you at this time.
