Hi [REDACTED]

Meher and I wanted to check-in and ask for an estimated timeline and date of completion for our room. We understand that you and your team are working hard to get this project completed and that this process naturally takes time. That said, we would love to have more information such that we can start planning our move-out as soon as possible—especially as the academic year starts and our schedules get busier.

Thank you for your help and we look forward to hearing from you soon,

Best,

Meher and Devika
